

Solutions FOR Immediate Relief

- Do your clients wear narrow fitting, toe-pinching shoes?
- Have their toenails become involuted, sensitive and painful to the touch?
- Do they suffer from excessive curvature of the toenail, pincher or rams horn nails?

The revolutionary B/S Brace System provides a **NON-Surgical, corrective procedure** that will not only eventually eliminate the pain but also help correct the curvature of the nail!

The B/S Brace Magnetic system is a revolutionary corrective technique for extremely curved toenails that:

- Alleviates pain and discomfort associated with curved and involuted toe nails
- Eliminates or reduces excessive pressure at the lateral nail edges
- Helps correct the curvature of the nail
- Is simple, fast and painless and involves NO surgery and NO downtime
- Is almost invisible, since polish can be applied over top of the brace
- Produces noticeable, pain-relieving results in just days!

The B/S Brace procedure will put an end to toenail pain. Your clients will thank you when they start feeling the benefits... right after application!

The B/S Brace Classic Magnetic Kit

With the revolutionary Magnetic applicator, the process of applying the B/S Braces is now even easier and more efficient!

- The B/S Brace Classic Magnetic Kit contains a variety of multi-sized braces, plus all components necessary for the preparation and fitting of numerous corrective toenail braces.
- Made with fiberglass reinforced Duroplast™, the thin strips placed across the toenail result in a gentle lifting of the nail. Over time, the B/S Brace corrects the abnormal curvature of the nail and starts relieving the elevated pressure in the nail fold... *immediately after application!*

- Polish can be applied right over top of the brace if desired, making the B/S Brace virtually invisible.

Choose the **Classic** or the **Classic+** Kit

Regular size Brace—
Suitable for
most applications

+ size Brace—

Benefit from pain-free results
by using the B/S Brace System

"I was too embarrassed to wear sandals because my toe nails were so curved. Just a few short weeks after application of the B/S Brace, I noticed a big difference. My nails are no longer as curved and I can wear sandals without embarrassment!"

— Merle B., FLA

"I just couldn't stand the pain on my big toes. Even the pressure of the blankets hurt. After the Brace was applied, I felt instant relief from the pain! I should have had this procedure long ago."

— Marilyn M., SASK

"I love this Product!!!!!!!!!!!!!! Can't live without it now....It is the only thing that has reshaped my nail plate to look normal again! Plus took the pain of ingrown toenails away instantly! AMAZING!!!!!!!!!!!!!!"

— Tracy T., ONT

"I am using it right now!! When she put them on within the same day I noticed a difference. I no longer have pain from ingrown toenails, and will be getting a second one put on soon!! Definitely recommend (to) anyone who suffers with pain dealing with the toes, (they) should definitely try... they are really worth it, and wish I would have done so sooner!"

— Tara B., SASK

"My friend told me about the braces and how well they worked on her, so I had the B/S Braces applied to both big toe nails. What a difference, no more pain!"

— Kaila T., BC
